Nick, a young, carefree, single Italian-American guy from New Jersey, sees both sets of his grandparents every Sunday for dinner. This routine continues like clockwork until he's offered a dream job on the West Coast that will take him away from his beloved, but annoying, grandparents. The news of his new job doesn't go over well with his elders, and the stage is set for a series of schemes on their part to keep Nick from moving across the country. Plans are hatched while games are played throughout **"Over The River and Through The Woods,"** resulting in a hilarious family friendly comedy of epic proportions!

"Loaded with laughs every step of the way."
