

SCROLLSAW DEMO

Friday, February 15, 2019 1:00 PM

at

Central Bucks Senior Activities Center

700 N. Shady Retreat Road

Doylestown, PA 18901

Jerry Fox, a member of the Central Bucks Senior Activities Center, will demonstrate the use of a scrollsaw. He has almost 40 years of experience working with the scrollsaw and has done demonstrations and taught classes on its use.

He will explain the history of the scrollsaw and show some examples of early fret saws and scroll saws and explain how they operate. Examples of some work that he has cut will be on display as well as a display of the blades used in scrolling. Samples will include cutouts of wood, plastics, MDF and countertop materials. Most of the materials he uses are recycled.

Although this will not be a "hands-on" for attendees, they will have an opportunity to see close-up the scrollsaws he uses regularly.

Attendance is limited. Please reserve your spot by calling .
